

The 26th International KOGO Annual Conference

Genomics for the Future Biology and Medicine

September 6–8, 2017

Sejong Convention Center, Sejong University, Seoul, Korea

Academic Session : Hall A, Hall B
Booth Exhibition & Poster Session : Hall C

Abstract Submission : July 3 – August 20, 2017
Pre-Registration : July 3 – August 20, 2017

Symposia

September 6 (Wed)

- Functional Genomics
- Protein Multi-marker Panel for Precision Medicine
- Bioinformatics/Big Data
- Metabolomics

September 7 (Thu)

- Genomics for Disease Mechanism
- Microbiome
- Cancer Genomics
- Plant Genomics
- Genome Editing
- RNA Biology

September 8 (Fri)

- Arthropod Genomics
- Pharmacogenomics
- ELSI in Gene Editing
- Single Cell Genomics
- Nutro-genomics and Personalized Nutrition
- Rare Disease Genomics

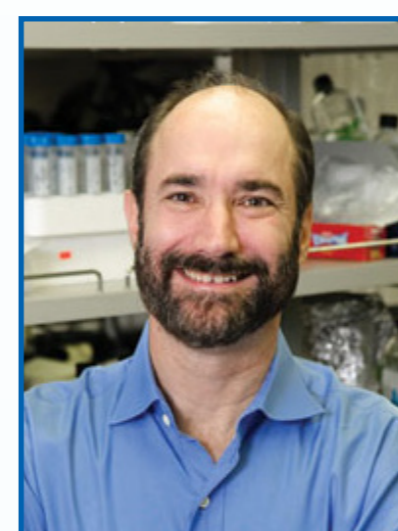

Plenary Lecture

September 6 (Wed)

Dr. Piero Carninci
RIKEN

An Emerging Landscape of
Transcriptome Complexity

September 7 (Thu)

Dr. Michael Snyder
Stanford University

Managing Health and Disease
Using Big Data

September 8 (Fri)

Dr. Kyong Soo Park
Seoul National University

The Genetics of Type 2 Diabetes Mellitus
in Korean

Event

- Multi-Ministerial Genome Project Session
- Catalogue of Korean Exonic Variations
- Korean Chip Array Consortium Session

KOGO Secretariat

The Korea Science and Technology Center (Rm. 1011), 22, Teheran-ro 7-gil, Gangnam-gu, Seoul 06130, Korea
